

Smarter AED management without manual checks.

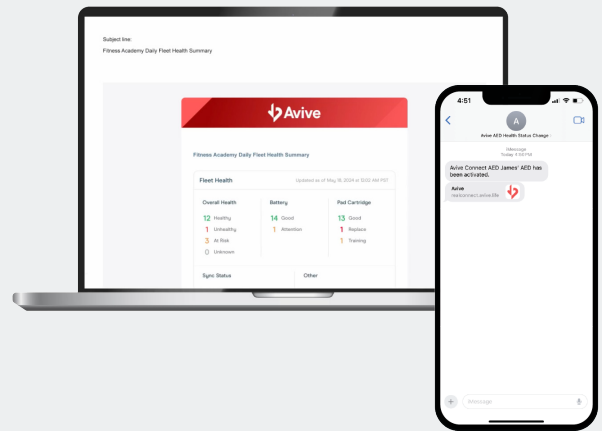

Avive's REALConnect™ Software

REALConnect redefines AED fleet management by leveraging Wi-Fi, cellular, and GPS on the Avive Connect AED®. Automated health checks and real-time alerts eliminate the need for in-person inspections, saving you time and effort.

Seamless maintenance

No more manual in-person checks. Streamline and simplify AED maintenance through remote monitoring and visibility in to daily device self-tests. Always know the status of your lifesaving AEDs - wherever you are.

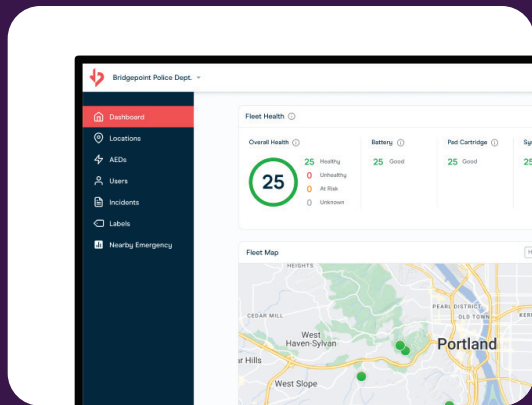

Peace of mind

Receive text or email notifications when your AED is in use or requires attention. Tailor your notifications so you get the updates that are most important to you.

No matter how you chose to finance your Avive Connect AED, you will have access to REALConnect.

- **LIFESaver™ Plan**
REALConnect software included throughout active membership.
- **One-Time Purchase**
Own your AED outright and get REALConnect software FREE for first year, then renew for \$199/year.

- Robust downloadable CSV reports for compliance purposes
- Remote software updates
- Customizable web and mobile dashboard
- FREE onboarding with Avive's Customer Success Team
- Extended 8 year warranty
- FREE pad cartridge replacements*

**One Avive pad cartridge post-use replacement or expiration replacement available annually per Avive Connect AED.*

“The ability to view AEDs in real time and track essential metrics like battery and pad life provides a huge peace of mind, especially when it comes to maintaining their readiness for use. Being able to monitor this remotely helps reduce the risk of failures at critical moments. The QuickRescue feature is a game-changer for efficiency too—invaluable in emergency situations.”

Ed Binns | Director of Operations, WAVES Ambulance, Minoa EMS
